

Sung-Uk Choi  
Professor  
Department of Civil & Environmental Engineering  
Yonsei University  
Seoul, Korea

June 10, 2010

Dear Prof. Choi,

**Member of the International Scientific Committee of RCEM2011**

It is a great pleasure to have you as a member of the International Scientific Committee (ISC) of RCEM2011, the 7th IAHR Symposium on River, Coastal and Estuarine Morphodynamics, which will be held at Tsinghua University, Beijing, China during September 6~8, 2011.

The principal responsibility associated with the role of an ISC member of RCEM2011 is to promote the RCEM Symposia as a forum for scientists and river engineers to share ideas and research results on river, coastal and estuarine morphodynamics. We would very much appreciate it if you could email bulletins of RCEM2011 to professional colleagues, review papers for inclusion in the conference, and play an active role during the conference when you participate in RCEM2011.

Thank you very much in advance for your time and efforts. We will be very grateful for your contribution to RCEM2011.

Kindest regards,

Sincerely,

*Wang Guangqian*

WANG Guangqian, Prof. Dr.  
Academician, Chinese Academy of Sciences  
Chairman, Local Organizing Committee of RCEM2011  
Director, State Key Laboratory of Hydroscience and Engineering,  
Tsinghua University, Beijing 100084, CHINA
